Profile

Hello! I'm Mohammed Razi, a creative and results-driven web developer with a knack for crafting elegant and user-friendly solutions. My passion lies in turning ideas into digital experiences that not only meet but exceed expectations. With a strong foundation in both front-end and back-end technologies, I bring a holistic approach to web development.

Professional Experience

Web Developer Intern   10/2023 — present

- Expert in HTML: Proficient in creating structured and semantic content for web applications.
- CSS Mastery: Skilled in using CSS to design visually appealing and responsive user interfaces.
- JavaScript Proficiency: Capable of implementing dynamic functionality to enhance user interactions.
  • User-Centric Approach: Dedicated to creating seamless and enjoyable web experiences through a blend of HTML, CSS, and JavaScript skills.

Education

Bachelor of Computer Application   07/2020 — 06/2023
Thiruvalluvar University

HSC   06/2019 — 04/2020
Anaikar Oriental (Arabic) Higher Secondary School

Projects

Portfolio 🔗
Designed and developed a personal portfolio website showcasing my skills, projects, and achievements in the field of web development. Leveraged HTML, CSS, and JavaScript to create a visually appealing and interactive online portfolio to express my skills.

Music player 🔗
Designed and developed a dynamic music player website aimed at providing users with an immersive and enjoyable music listening experience. Leveraged HTML, CSS, and JavaScript to create a visually appealing and responsive platform for music enthusiasts.

Restaurant 🔗
Designed and developed a vibrant and interactive website of Rio Restaurant, a fictional restaurant inspired by Brazilian cuisine. Leveraged HTML, CSS, and JavaScript to create a visually appealing and user-friendly online presence for the restaurant website.

Cake shop 🔗
As part of my web development journey, I designed and developed a responsive cake shop website using Bootstrap, showcasing my skills, projects, and professional journey. The website is built on the Bootstrap framework, leveraging its grid system and components to ensure a consistent and visually appealing user experience across various devices.

Quiz 🔗
Our music player website project combines the power of HTML, CSS, and JavaScript . Our responsive design ensures that users can enjoy their favorite tunes on any device, whether it's a desktop computer, tablet, or smartphone.
